Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's submission filed on 25 November 2008 has been entered.

Claim Objections

Claim 4 is objected to because of the following informalities:

Claim 4 should be amended to depend from claim 3 since it further limits the first end and the recitation "first end portion" should be changed to "first end". Appropriate correction is required.

Claim Rejections - 35 USC § 103

The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

Claims 1, 5, 12, 13 and 14 are rejected under 35 U.S.C. 103(a) as being unpatentable over Angehrn, U.S. 4,047,430 in view of Blurton et al., U.S. 3,693,729.

Angehrn discloses in figure 2 a stationary frame or drilling platform (30) having a protective element extending into the borehole (31). Angehrn discloses the protective

Art Unit: 3672

element having a lower part in the borehole and an upper part near the rotary table (42). Angehrn discloses a logging device (33) unitary with a charge providing battery (121) and in an uncased borehole section for measuring or sensing formation characteristics. Angehrn discloses an elongated transmission element (36) and a transfer device (39). The drilling platform is inherently capable of supporting a rock drill but is not disclosed to be a portable drilling platform. Blurton et al. teaches use of a portable drilling platform to explore remote inaccessible regions (col. 1, lines 1-25). It would have been obvious to one having ordinary skill in the art at the time of the invention to arrange for the stationary drill platform disclosed by Angehrn to be portable as taught by Blurton et al. to achieve predictable results since the use of portable drill rigs is well known in the art.

Angehrn discloses a feeding beam (34) of a drilling platform (30), a frame (80) or sub for the measuring device

Allowable Subject Matter

Claims 2-4, 6-11, 15 and 16 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

Conclusion

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Kenneth Thompson whose telephone number is 571 272-7037. The examiner can normally be reached on 6:00 am - 2:30 pm.
